RECOMMENDATION

Jonathan Axten (Green Green Grass) offers the most competitive price at £18,000 with no VAT and already knows the site, making him the lowest-risk, lowest-cost option if budget is the primary concern. However, reliance on a single individual carries operational risk.

Kane Smith (Smith's Lawn & Home Maintenance) provides a thorough and professional submission but is the most expensive single-contractor option and carries the additional risk of periodic absence due to on-call firefighting commitments.

Sound Site Services (SSS) is the highest-priced option but offers the strongest company credentials, a two-person team (improving health & safety), local presence, and the broadest capability for additional estate works. They are well-suited if a longer-term relationship with a commercial contractor is preferred.
